Modifications of technical datas and measurements are subject to change. Measurements, weights and datas are reference standards. Priceslist valid on the day of the actual delivery. Sales only under our terms and conditions valid as well as our terms of sales and delivery. Place of fulfillment for delivery and payment is Plettenberg. Extended retention of delivered goods is valid until receiving full payment.

Covering systems

Easy solutions for specific requirements

Panels instead of using tarpaulins/ canvas for dust- and weather protection

PLETTAC COVER system consists of cover panels from light weight aluminium frames with metal sheeting to protect construction sites in combination with using scaffoldings.

The innovative covering system is protecting the workers against weather influences as well as the surrounding area of the construction site against dust and noise. The new PLETTAC COVER system is characterized by an EASY and SAFE assembling. Thanks to the newly developed cover supports, the panel can first be placed on the lower panel and put into position. In a second step, the installer secures the cover plates by slightly turning/rotating the retainer of the cover-support in the upper area. The cover panels can be assembled in any order, from top to bottom or the other way round. Single panels can be removed at any position. The panels are offered with sheet metal or transparent plastic filling. Noise-reducing panels are available on demand.

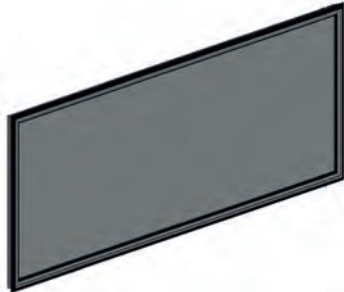

Your advantages:

- Adapter for modular scaffold and facade scaffold.
- Panels with sheet metal or transparent plastic filling.
- Noise-reducing panels on demand.
- Easy system made of robust panels and efficient adapters.

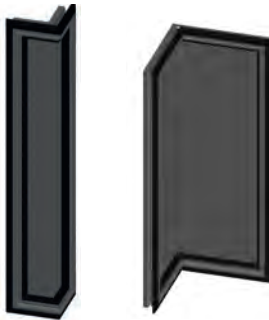

Wallpanel cover

Cover panel with lightweight frame and robust steel sheet filling.

Fixing / Connecting systems

Cover-adapters and further connection possibilities for frames- and modular scaffoldings.

Panel connector

Code	Dimensions (cm)	kg	LC	PU
5FCOV01000 for modular scaffolding		1,9		
5FCOV01001 for frames-/modular scaffolding and inner corner		2,0		

Adapter for panel connector

for corner construction at frame scaffolding

Code	Dimensions (cm)	kg	LC	PU
5FCOV01002		1,2		

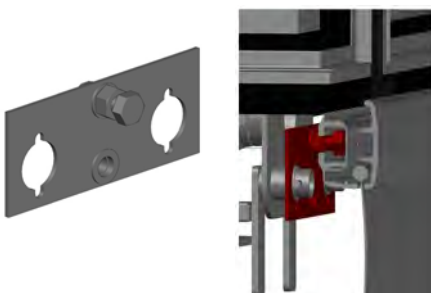

Corner plate outer / inner

Code	Dimensions (cm)	kg	LC	PU
5FCOV07000		3,05		

Bottom cover adapter

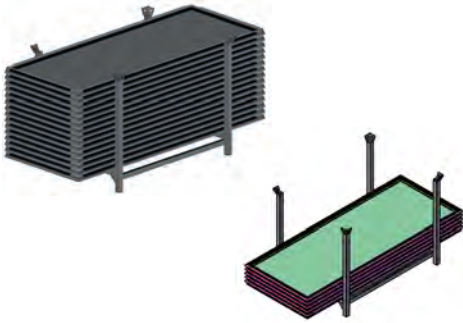

for fastening a Keder rail profile, Keder diameter approx. 12 mm

Code	Dimensions (cm)	kg	LC	PU
5FCOV08000 Bottom cover adapter		0,30		
5FDEUS2000 Keder Rail	200	5,20		
5FDEUS3000 Keder Rail	300	7,80		
5FDEUS4000 Keder Rail	400	10,40		
5FDEUS5000 Keder Rail	500	13,00		
5FDEUS6000 Keder Rail	600	15,60		

Logistic and transport

Pallets for easy and safe warehousing.

Pallet XL 950 for Cover Panels

for 15 panels, load capacity 1.000 kg

Code	Dimensions (cm)	kg	LC	PU
5F00822972	L 156 x B 118 x H 80	50,0		

Door for emergency staircase

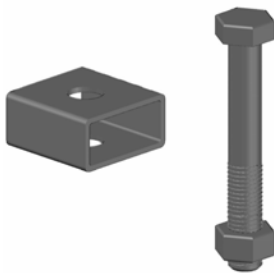

Construction site door for escape and replacement stair towers. Optional with panic ledger for easy opening.

Escape door

free passage width 120 cm

Code	Dimensions (cm)	kg	LC	PU
5SA1734620		90,0		
with panic lock, for bay lengths 1,39 / 1,40				
5SA1734621		90,0		
with standard lock for bay lengths 1,39 / 1,40				
5SA1734650		90,0		
with panic lock, for bay lengths 1,50/ 1,54 / 1,57				
5SA1734651		90,0		
with standard lock for bay lengths 1,50 / 1,54 / 1,57				

Assembly set for escape door, SL-height adjustment tube

Code	Dimensions (cm)	kg	LC	PU
5SA1734618		0,4		

Advertisement on Cover Panels

Cover Panels can be used for advertising purpose by sticking foils on it. See hereunder measures of space that can be covered by foils. The gap at the top and sideways between the adjoining plates is 12,5 mm.
