

PRODUCT INFORMATION

Corner Deck Support quadro

The corner deck support assco quadro enables the installation of system decks in conjunction w/ a side bracket 36 with tube connector and at the same time closes the gap at the inner corner of the facade scaffold.

At the head end of a assco quadro 70 bay a system deck of L109 has to be used and fixed against moving and lifting up by adequate measures.

Code	Description	Dimensions (cm)	Weight
